

Zone 6 Report submitted by Holly Tilson 11/10/2020

Possible up-zoning, crime and homelessness are still big issues.

Lots of bikes and catalytic converters stolen. A rash of tire valve stem caps stolen (a couple of mine too). And tragically, a 73 year old man died after being shoved and hitting his head on the ground while the criminal took off stealing yet another bike (does anyone know where all these bikes are being resold?). Requested more info last week from our SLO. Said he would contact the detectives and get back to me. No further information.

Helped residents connect with the Neighborhood Prosecutor to resolved noise issues and large gatherings during COVID.

Working with another group of residents regarding an illegal AirBnb.

Missing sidewalk on Rose between Colonial and Centinela still a work in progress.
