 - i. The MVCC Public Health and Safety Committee is committed to Building a more resilient Los Angeles starts with addressing the needs of our most vulnerable populations and neighborhoods. Too often, those who are least equipped to handle the effects of catastrophic events end up suffering the most. And empowering our most vulnerable —children, immigrants, and lower-income residents, among others —is not just about emergency preparedness. It is about directly addressing those underlying daily stresses —such as poverty, financial security, and affordable housing —and ensuring that all Angelenos feel safe and secure in their daily lives. It also means bringing neighbors together to strengthen our collective resources and social bonds and innovating creative solutions along the way. Our proposed actions are about building resilience to both the impacts of unexpected catastrophic events and chronic underlying stresses.
 1. Safe and Thriving Angelenos

2. Strong and Connected Neighborhoods
