

POLICY MOTION

COMMITTEE: Transportation & Infrastructure

TITLE: Address Dangerous Crosswalk: Sepulveda and Clover

PURPOSE: To reevaluate the dangerous crosswalk located at the intersection of Sepulveda Boulevard and Clover Ave next to the UCLA University Village Apartments.

BACKGROUND: As the pictures demonstrate, there is a crosswalk located at the intersection of Sepulveda Boulevard and Clover Ave next to the UCLA University Village Apartments. This crosswalk is in both a residential and commercial area with a bike lane. The road's average speed is 50mph. This crosswalk was brought to our attention by stakeholder, Samuel Lutzker who was almost hit crossing this crosswalk on Nov 12, 2021. Many people use this crosswalk from the UCLA Family Housing. As the pictures also demonstrate, the pedestrian sign keeps getting knocked down. These concerns should be enough reason for LADOT and LA City Council to re-evaluate planning in this area.

THE MOTION: The MVCC is FOR a re-evaluation of the safety of the pedestrian crosswalk located at the intersection of Sepulveda Boulevard and Clover Ave next to the UCLA University Village Apartments.

DIRECTED TO: LADOT; LA City Council
