

FUNDING MOTION

COMMITTEE: Executive & Finance

TITLE: MVCC Area Improvements at MV Library

PURPOSE: Purchase items to improve the MVCC area at the Mar Vista Library.

BACKGROUND:

The Mar Vista Library has an area that has been designated for use by the Mar Vista Community Council (MVCC). A cork bulletin board has been used for years; however, MVCC materials are constantly being removed and replaced with other non-MVCC materials.

The idea of replacing the cork board with a locking case (similar to what is used at the Mar Vista Recreation Center) was well-received by those at the Library. However, COVID shut the library down and further action was delayed.

In January, when the library was re-opened, discussion of replacement resumed. While the idea is still wanted by both parties, the wall (where the enclosed case would be placed) is the wall where their electronic equipment is stored. This means that a City engineer must come to determine approval. This process takes some time.

In the meantime, the idea of attaching a printed foam/poster board to the cork board is approved as it would not involve touching the wall.

The printed foam/poster board could be replaced as needed (e.g., promote a MVCC event).

A literature stand for our newsletter, flyers, or other materials can also be placed in that area.

THE MOTION:

The MVCC approves and expenditure, not to exceed \$600, to purchase a printed foam/poster board, literature stand, and other items needed to improve the MVCC area at the Mar Vista Library.

ACTION/VOTE COUNT:

Approved without objection at the June 9, 2022, Executive/Budget & Finance Committee meeting.
