Motion Regarding Dept of City Planning Re-Zoning Program

Whereas the CA state Housing and Community Development Dept (HCD) in 2022, rejected the Los Angeles Dept of City Planning's (DCP) updated Housing Element,

Whereas the reason for this rejection given by the state is the Housing Element's not producing enough housing across all income levels to meet its 6th Cycle RHNA requirement (Regional Housing Needs Assessment) of 456,643 units between 2021 and 2029,

Whereas, in response to this, DCP has determined that it needs to generate an additional 255,432 units through zoning changes,

Whereas, DCP has instituted a city-wide ReZoning program designed to address this issue,

Whereas, this Re-Zoning program includes, in Chapter 4, Appendix 4.7 of the revised Housing Element, a spreadsheet titled Inventory of Candidate Sites for Rezoning that lists hundreds of properties in Mar Vista: <u>https://planning.lacity.org/plans-policies/housing-element-update - adopted-plan</u>,

Whereas, the maps included in the new Housing Element Rezoning Program are devoid of many preservations included in the Draft Palms-Mar Vista-Del Rey Community Plan document (2020) <u>and</u> include extensive upzoning in Mar Vista:

https://drive.google.com/file/d/1ugxV8jqp57tqDehho4WsQ13sgSnlBMMj/view?ts=63587e38,

Whereas, the population of Los Angeles is, per the 2021 US Census, 3,849,297 and that of Mar Vista is 51,338 (2019, Dept of Neighborhood Empowerment),

Whereas this makes Mar Vista 1.33% of the population of Los Angeles,

Whereas, this would make Mar Vista's contribution to DCP's targeted shortfall of housing 3,397 units for the 2021-2019 6th Cycle RHNA requirements,

Whereas, a Dwelling Unit Capacity calculated by the Mar Vista Community Council's (MVCC) Community Plan Update committee in 2020, demonstrated that, when including units generated from the Los Angeles City TOC Ordinance, SB 1818 and ADU bonuses, existing zoning codes in Mar Vista would generate an excess capacity of 12, 591 units through 2030,

Whereas, the TOC, SB1818 bonuses are designed to generate Affordable units with every development which utilizes them,

Whereas, per DCP's own reports, these density bonuses account for the majority of new discretionary projects throughout the city of Los Angeles

Whereas this would satisfy the state Affirmatively Furthering Fair Housing (AFFH) requirements,

Whereas, the TOC Ordinance contains a clause which permits the mandated percentage of Affordable units required in order to qualify for the bonus could be changed via a Community Plan Update,

Whereas the MVCC's Community Plan Update committee, in 2020, requested the required per cent of Affordable units be increased from 10% to 60% in Mar Vista,

Whereas no response from DCP to this request has been received to date by MVCC,

Whereas, this increase would generate even greater quantities of Affordable Housing in Mar Vista,

Therefore, MVCC posits that its current zoning, when including the units generated by the TOC Ordinance, SB1818 ordinances, more than satisfies its contribution to the 6th Cycle RHNA shortfall identified by DCP,

Moreover, if the recommendation of the MVCC Community Plan update committee to increase the per cent affordable required to qualify for TOC bonuses were enacted by the City of Los Angeles, there would be even greater numbers of Affordable units generated,

Therefore, the MVCC requests that no Re-Zoning be applied in Mar Vista in the city-wide rezoning program.

Capacity After TOC Bonus (d)	_	-	-	n/a	3,584.97	1,024.35	4,609.32
Total Capacity After All Bonuses (c)							69,724.17
DONE Population Estimate (e)							57,133.00
EXCESS CAPACITY IN 2030							<u>12,591.17</u>

FIGURES DERIVED USING THE CURRENT PALMS-MAR VISTA-DEL REY COMMUNITY PLAN (1997)

(a) Derived from current Palms-Mar Vista-Del Rey Community Plan (1997)

(b) Calculated from ZIMAS using the Measuring Tools and Select by Polygon

(c) Applied ADU Bonus to only 25% of R1 parcels [percentage could be more, which would increase Excess Capacity up to an additional 16,566.44]

(d) Applied maximum (35%) Bonus

(e) DONE ACS 2016 population estimate: 53,346. Assumed 5% increase per decade. [12/30/19, DONE decreased population by 2,008. See Attachments]

- A 5% increase per decade is based on 1990, 2000 and 2010 US Census figures for Los Angeles: 3.49 M (1990), 3.703 M (2000) and 3.796M (2010), which show 6% and 2.5% increases respectively. An average of these yields 4.25%.
- Five per cent is likely an overestimation as, per the US Census estimates, the Los Angeles Combined Statistical Area, CSA (which is composed of LA, Orange, Riverside, San Bernardino, and Ventura counties) experienced a net negative migration between 2011 and 2018, with LA County experiencing a loss of 534,000. Growth in the Los Angeles CSA as a whole grew by only 0.024% between 2017 and 2018. Los Angeles County lost 534,000 between 2011 and 2018, and the Los Angeles Combined CSA experienced a growth of only 0.024% during that period.
