Subject	Mar Vista NPG draft

Thank you for your support of our bicycle safety project. Please let me know what you think of our NPG draft.

Neighborhood Purposes Grants (NPGs) provide NCs opportunities to develop partnerships with local 501(c)(3) nonprofits and public schools to build community and enhance neighborhoods in the City of Los Angeles. Projects and activities supported by NPGs vary widely and can include, but are not limited to:

- The Arts
- Beautification
- Community Support
- Education
- Community Improvements

NPG-funded projects and activities must be for a **public benefit** and purpose, **open**, **accessible**, and **free of charge** to stakeholders.

Grants approved by NCs exceeding \$5,000 involve further review and possible City contract by the Office of the City Clerk.

Visit the NC Funding Program website page on NPGs ([click here](#)) to find out more details about how 501(c)(3) nonprofits and public schools serving NC areas can apply. There are two NPG Information Packets; One for prospective applicants to help guide them in the application process, and one for NC board members outlining considerations and factors to keep in mind while evaluating NPG requests.

A “Project Completion Report” template is also provided to help ensure accountability in the use of Grant funds and help demonstrate how NCs and their partners are supporting L.A. communities and stakeholders. NCs and NPG recipients are strongly encouraged to work together to complete and submit the Report at the conclusion of the project.

Any questions you may have with the NPG process, please contact us at the NC

SECTION II - PROJECT DESCRIPTION

4) Please describe the purpose and intent of the grant.

The purpose of the grant is to serve Mar Vista's underserved and unhoused communities with free bicycle safety packages to ensure the safety of our most vulnerable mobile commuters. This grant will provide Karma's bicycle repair and safety project, Bicilibre, the opportunity to purchase lights, locks, reflective items, and helmets for at least 100 participants. For more information on Karma, see karmicaction.org and bicilibre.com.

The bike safety giveaways will be readily accessible at our host site, Bikerowave, a community bike shop that has been serving the Mar Vista cycling community for 15 years. This project will conclude in one year; however, we expect the 100 sets to be distributed sooner, as Bikerowave is open 5 days a week and is frequently used by people who cannot afford regular bike shops.

The safety equipment will be given to cyclists who need the equipment but otherwise could not afford it. This grant will be allocated to Karma's project, Bicilibre, to directly purchase safety equipment for distribution at Bikerowave. Karma, in cooperation with Bikerowave volunteers, will be responsible for completing an end-of-program report.

A flier for the program will be printed and displayed at Bikerowave, with an explanation of the program and its partners. The flier will be available in both Spanish and English.

The program includes participants receiving bike safety instructions through short bilingual videos on how to use the equipment and basic rules of the road. This is part of the effort to empower and create safer riders.

Through this partnership, the organization aims to enhance safety and accessibility for underserved populations, contributing to a safer and more inclusive cycling environment.

5) How will this grant be used to primarily support or serve a public purpose and benefit the public at-large. (Grants cannot be used as rewards or prizes for individuals)

This grant will serve the public by funding the distribution of lights, locks, and helmets, which are essential bicycle safety accessories. These items are critical for enhancing cyclist safety and security, especially for those who cannot afford them. The grant ensures that underserved residents, including those already receiving low-cost or work-trade bicycles from Bikerowave, have access to the necessary equipment to ride safely. The Bikerowave is open 5 days/week year round, providing bicycle repair guidance, access to new and used parts as well as bikes for purchase or work trade. However, Bikerowave cannot meet the demand to provide free safety accessories that enhance rider safety and security. By funding KARMA's Bicilibre bike safety program, Bicilibre will be able to meet the demand by distributing the lights, lock, and helmets.

The video content on proper use of the equipment will increase the likelihood of success by educating the recipients of the safety equipment on the proper use of each item. Videos are available on line and can be watched in the Bikerowave on a person's mobile device or the Bikerowave's smart TV. The videos are provided by the League of American Cyclists, the leading cycling safety advocate in America. See bikeleague.org

By offering at least 100 sets of these accessories at no cost to low income people that are already coming into the Bikerowave for low cost bicycles or bicycle repairs the grant will directly benefit the public by improving safety and promoting accessibility for economically disadvantaged individuals in the Mar Vista area. This will increase the maximum benefits and impact the NPG grant will invest in safety for some of the most vulnerable road users.
