Motion

TITLE: Requiring Geofenced Parking for Commercial Dockless Mobility Operators

COMMITTEE: Transportation, Infrastructure, and Sustainability (TI&S) Committee

THE MOTION: The MVCC directs the following communication to the relevant stakeholders: "WHEREAS, commercial dockless mobility operators—such as Lime, Bird, Veo, and others—are permitted to operate e-bikes and e-scooters in the City of Los Angeles under annual permits administered by the Los Angeles Department of Transportation (LADOT); and WHEREAS, unlike many other municipalities, the City of Los Angeles currently lacks a mandatory geofencing system that requires riders to terminate their rentals exclusively within designated parking zones, similar to Metro Bike Share stations; and WHEREAS, the absence of designated parking enforcement results in e-bikes and e-scooters blocking sidewalks, pedestrian ramps, crosswalks, and bus stops, creating significant accessibility hazards and street clutter throughout Los Angeles neighborhoods; and WHEREAS, these commercial operators already deploy geofencing technology in numerous other cities across the country, making the implementation of such a system in Los Angeles a technically feasible and established industry practice; NOW, THEREFORE, BE IT MOVED, that the City Council instruct LADOT, in coordination with Council District 11, to require permitted dockless mobility operators to establish and participate in a mandatory Geofenced Parking Pilot Program within Council District 11 prior to the renewal of any annual Dockless Mobility Permits."

BACKGROUND:

- This motion comes from a stakeholder communication.

DIRECTED TO: TBD at October 6, 2026 meeting

ACTION/VOTE COUNT:

MVCC T&I Committee meeting, October 6, 2026
