Motion

TITLE: All Way Stop for Intersection of Wade and Matteson

COMMITTEE: Transportation, Infrastructure, and Sustainability (TI&S) Committee

THE MOTION: The MVCC directs the following communication to LADOT: "The MVCC requests that LADOT study the implementation of an all way stop at the intersection of Wade and Matteson to prevent further serious injury."

BACKGROUND:

- On April 27, 2023, and LADOT engineer relayed the following message in response to a similar request. "An All-Way Stop Study was done for the intersection of Wade Street and Matteson Avenue back in 2020 and the request was denied because the intersection did not meet any of the warrants for an All-Way Stop. There are no future studies scheduled at this time since we already have pending many other studies at other intersections. We can do a new study but only after our current fiscal year is over, after July 1st, 2023. Please submit a new request for Wade Street and Mattheson Avenue after July 1st, 2023 and we will be happy to add it to the list for a new study."
- A cyclist was hit on July 21, 2026.
- Residents report hearing screeching tires at the intersection often.

DIRECTED TO: LADOT, Traci Park CD11
