One Gateway Plaza

Michele Jackson Board Secretary, [boardsecretary@metro.net](mailto:boardsecretary@metro.net)

Dear Ms. Jackson:

At its regularly scheduled Board meeting held June 12, 2012, the Mar Vista Community Council approved the following three Exposition Light Rail policy resolutions:

- A. POLICY MOTION on North/South rail connections and Expo station design:** The MVCC Board strongly supports the establishment of any rail/station design of the future Exposition/Sepulveda station that will accommodate a future north-south rail line to serve both the short-term and long-term passenger rail plans of the Westside and adjacent regions
- B. POLICY MOTION Supporting Study and Potential Creation of a Westside Regional Transportation Center**  
The MVCC Board supports the study and potential creation of a Westside Regional Transportation Center at/adjacent to the future Exposition/Sepulveda rail station to accommodate the automobile, bus, bicycle and pedestrian amenities needed for comprehensive regional access to this future transportation hub
- C. POLICY MOTION: Supporting Exposition Light Rail Line Station Passenger Amenities**  
The MVCC Board strongly supports and urges any efforts by Metro and the City of Los Angeles to procure extra funding (if the Exposition Light Rail Authority can neither fiscally nor legally provide this funding) for the following design elements to be included in both Phase 1 and Phase 2:
1. Roofs, canopies, and/or pavilions at Expo Line stations that sufficiently protect from rain, are function-based and properly protect riders
  2. Walls and roofs at Expo Line stations that sufficiently block the wind, sun and other elements, are function-based and properly protect riders
  3. Native and ecofriendly landscaping (unless those communities through which Phase 1 runs do not support it for their local stations) SEND BOARD RESOLUTIONS TO: METRO

Sincerely,

Sharon Commins, Chair  
Mar Vista Community Council
