As the policy-setting body for Neighborhood Councils, the Board of Neighborhood Commissioners shared the draft amendments to the Code of Conduct policy with Neighborhood Council members on July 19, 2021, for education, review, discussion, and comment. The Department is hosting these virtual info sessions as part of that process.

At the end of the review period, a summary of commonly asked questions and comments will be shared with the Commission, as they make their decision about the proposed policy amendments.
