September 9, 2008

The Mar Vista Community Council, at its regular September 9th meeting, passed the following motion:

The Mar Vista Community Council requests of the Los Angeles Department of Transportation that:

- 1. When it installs speed humps, it does so at heights and/or spacing such that the maximum speed of 85% of traffic using the block in question will remain at or below the posted speed limit.**
- 2. It switch to “split-type speed humps”, as used by Culver City and other neighboring cities, which allow Fire Department trucks, engines and rescue ambulances to pass without slowing.**

Thank You,

Rob Kadota
